

Portable Dehumidifier

PRODUCT FEATURE

- CNC processed metal casing, rigid & durable
- Washable coarse air filter, easy to maintain
- Pump/Hose/Bucket drain available
- Panasonic compressor, R410a refrigerant
- Class F fan motor, Low/High air speed
- Timer On/Off function
- Smart automatic recover function
- Defrost time & temperature adjustable
- Compressor delay start protection, fan delay stop protection

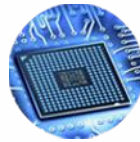

Durable Fan

Class F motor, low/high speed

Adjustable Defrost Time & Temperature

Solve icing problem & prolong lifetime

Auto Restart Function

Restart automatically from sudden power outage

Multiple Water Drainage

Suitable for different applications

TECHNICAL SPECIFICATION

Model	ecoFD-I110L	Auto Restart Function	Yes
Rated Capacity (30°C, 80%)	100~110L/day	Refrigerant	R410a/850g
Power Source	230V/50Hz/1Ph	Fan Speed/Noise Level	Low(55dB)/High(65dB)
Rated Power/Rated Current	1450W/6.4A	Drainage	Hose/Tank/Pump (optional)
Humidity Control Range	40-70% continuous	Weight	54kg
Available Ambient Temperature	10-35°C	Measurement	415x455x960mm
Max. Air Flow	1300m ³ /h	Package Size(mm)	485x530x995mm
